

Innovations and Partnerships for Aging Organizations Under Health Reform

November 30, 2011

Marty Lynch

LifeLong Medical Care

Mlynch@LifeLongMedical.org

- Medicare Patient Centered Medical Home Demo
- CBAS: Community Based Adult Services
- Opportunities for Aging Programs in Managed Care Transition

Patient Centered Health Home

- Clinic or Doctors' Office Coordinates Range of Health Services
- Ready Access
- Technology
- Empanelment
- Continuity of Care
- Data Driven

Primary Care in Transition

NOW

- Siloed
- Pay by visit or procedure
- Medical Only
- Doctor as Expert
- Impossible to Do All

FUTURE

- Integrated Team Care
- Payment for Outcomes
- Non-medical issues affect health
- Motivational Interviewing
- Team provides care

Community Based Adult Services

- Adult Day Health Care Settlement
- Details not released yet
- Center based service for elderly disabled
- Half the participants of ADHC
- Managed Care Framework
- Enhanced Case Management for those who don't qualify

Opportunities for Aging/Disabled Providers in Managed Care

- Growing interest in integrated care
- Coordination of care for SPD population (Seniors and People with Disabilities... non-duals)
- Some integration possibilities for Duals Pilots and Duals managed care
- Plans responsible for home and community based services, case management, etc.
